WEEE

(Waste Electrical and Electronic Equipment)

Fluid Metering, Inc. is committed to protecting the environment and understands we have only one planet EARTH in which to live. To preserve our environment, this product must be recycled after its useful life as required by **LAW**. FMI products marked using the WEEE “crossed out wheelie bin” must be disposed of properly. Please return the product for proper recovery/disposal to the authorized collection location nearest you. For more detailed information regarding where to return and general information on recycling FMI products contact FMI. When contacting FMI please have the serial numbers of the items to be recycled.

RoHS

(Restriction of Hazardous Substances)

Fluid Metering Inc., in its continued effort to maintain the highest quality standards, is in the process of implementing the EU RoHS program. We are working with all our suppliers in an effort to meet these environmental friendly standards where applicable and as soon as possible.

It is FMI's understanding that the two most applicable categories relating to our products, Medical Devices and Monitoring & Control Instruments, are not currently covered by the July 1, 2006 effective date. It is also our understanding that under the Medical Devices and Monitoring & Control Instruments categories, electrical and electronic equipment that is part of another type of equipment are excluded from the RoHS July 1, 2006 effective date. Customers will need to determine the applicable RoHS categories and their effective dates as they apply to their products as well as the FMI products used.

If requested and regardless of the effective date and the RoHS categories covered, FMI will be glad to cooperate with any customer regarding specific products and the implementation required.
