Reach Compliance Statement

Dear Valued Customer,

REACH is the European Community Regulations on chemicals and their safe use. It deals with the Registration, Evaluation, Authorization and Restriction of Chemical substances (REACH).

Fluid Metering, Inc. (FMI) manufactures and supplies products ("Articles" as defined in the REACH regulations) that are assembled in the United States. According to information available to us, there is no indication that our products contain SVHC (Substances of Very High Concern) in concentrations > 0.1 weight% and based on the published regulations and information available, it is our understanding that our products do not require registration, for the reasons that they are not intended to release, or intentionally release, chemicals or substances.

Since conditions of use of the FMI products are outside FMI's control, FMI makes no warranties, express or implied, and assumes no liability related to any use of this information.

Sincerely,

Hank Pinkerton
President
